

## ***Understanding Economic Damages in Intellectual Property Disputes***

***brought to you by BRG***

1.0 CLE Credit Hour

This knowledgeable and experienced panel will discuss the economics underlying the calculation of damages in intellectual property disputes, with a focus on patent infringement damages. They will provide an overview of economic damages generally, and discuss how economic damages may be applied in patent infringement disputes. They also will address some of the specific economic factors routinely analyzed as part of patent infringement damages. The multi-disciplinary panel features two economists and a trial attorney, who each bring their own unique perspectives and hands-on experiences addressing the economics of damages in the context of patent infringement.
