

**Statement of William Nelson**  
**Candidate for Steering Committee**  
**Corporation, Finance & Securities Law Community**

I am honored to serve as Chair of the DC Bar Corporation, Finance, and Securities Law Community Steering Committee and seek your support to continue serving on the Committee. As Director of Public Policy and Associate General Counsel at the Investment Adviser Association and a securities law professor, I bring deep experience in corporate, finance, and securities law, along with a strong commitment to fostering engagement within our community.

Over the past year, I have worked closely with our subcommittees to organize high-quality programs that provide valuable insights on key legal and regulatory developments. My goal is to ensure our community remains a premier forum for professional growth, networking, and industry leadership.

With your support, I will continue expanding our programming, fostering meaningful discussions, and ensuring our community remains dynamic and responsive to its members. I appreciate your vote and look forward to continuing to serve.
