

RANDY HEITMAN

My name is Randy Heitman. I am 71 years old. I have stage IV metastatic prostate cancer and COPD. Since my compassionate release that was made possible by FAMM'S Juliana Andonian and attorney Devon Galloway, I have been living on a ranch in Lone Oak, Texas with my friends Mike and Candy Sims. I spend my time taking care of the horses and doing odd jobs, and I could not be happier. The Veterans Administration is taking care of my medical needs, and I appreciate everything that has been done for me every day. Thank You
