

## **DANIEL NEWMAN, MD**

Dr. Daniel Newman is an Assistant Professor of Pediatrics at George Washington University School of Medicine and Health Sciences and attending physician in the Department of Community Pediatrics at Children's National Hospital. He is Associate Medical Director at Children's National Columbia Heights, a primary care medical home that serves a predominantly immigrant community. He is co-chair of the DC Chapter of the American Academy of Pediatrics Immigrant Child Health Committee. He enjoys teaching and mentoring medical trainees, both medical students and pediatric residents. His career interests revolve around immigrant child and family health- in research, advocacy, medical education, and clinical care. Along with colleagues at the Children's National Columbia Heights office, he has piloted an immigration legal screening program to identify families who may benefit from connecting to affordable immigration legal supports in the community.
